STATEMENT REGARDING INCREASE IN INVESTABILITY WEIGHTING

HAMILTON, Bermuda - FTSE International announced on Wednesday that the Investability Weighting in the FTSE 250 Index for Catlin Group Limited ('CGL': London Stock Exchange) will increase from 40 per cent to 75 per cent, effective 20 June 2005.

This decision follows significant recent changes in the composition of Catlin's share register, including market sales by several of the Group's pre-IPO equity investors. As a result of these changes, Catlin's free-float has substantially increased.

Stephen Catlin, Chief Executive of the Catlin Group, said:

"The Catlin Group has continued to generate strong results since becoming a public company, and we hope that the increasing liquidity will make it easier for investors to acquire the Group's shares."
